CD165:15-6, what interests me most is penultimate 16, LHO getting check from N.O. Now, what that fouldn't mean, if true. And there is no accounting of such income in the official accounting, is there? Even a small check? And we know that LHO didn't go to banks with his checks as much as to stores. Very interesting. Wish I had what seems to have been left out or not sought. I havefiled this under Bowen, but if you can, I'd like a copy of this page for my O-MO file, 16 only, pls.
